

SureKill® Assault

Product Number: 112831

SureKill Assault	Product Number
Block 4 lb bucket (0.5 oz block)	112831

Key Features

Active Ingredient: Bromethalin

- Acute toxicant
- First dead rodents may appear within 1-2 days of bait placement
- Stop Feed Action - rodents stop feeding after consuming a lethal dose resulting in less bait consumption
- Low risk of secondary toxicity
- Very palatable formulation - made from food grade ingredients that rodents love
- No resistance - neurotoxin that breaks the cycle of anticoagulant resistance
- Establishes control in high infestations

Product Description

SureKill®'s Assault Blocks contain the single-feed bromethalin formulation, which makes rodents want to stop feeding after consuming a lethal dose, using less bait overall. Assault Blocks have a quick knockdown when compared to other anticoagulants, with results in as little as 2 days after consuming a toxic dose. Bromethalin is great for controlling rodents with resistance to anticoagulants.

Purpose

With superior weatherability and food-quality ingredients, SureKill rodenticides provide excellent control quickly and effectively, without the need to use large amounts of bait and are convenient for both indoor and outdoor everyday use to control rats, mice and other rodent populations.
