

# AccuPoint® Advanced Next Generation

*A Complete Sanitation Monitoring System*

## Make the Invisible Visible

Ensuring a safe, clean environment for all people is a growing public concern. Whether you serve the food industry, healthcare industry, retail industry, or another, being able to quantify the effectiveness of your sanitation practices will be reassuring and promote a sense of security for everyone around you.

We've developed an easier, more seamless way to store critical data and verify your team's cleaning practices with an easy-to-use, handheld device that will bring you increased confidence.

### Target Surfaces:

- Bathrooms
- Doorknobs
- Equipment
- Hard surfaces
- High frequency touch points

### Benefits Include:

- 24/7 global support
- Increased confidence in your environment's cleanliness and safety
- Increase team member attendance and customer retention
- Address commonly missed steps in your plan
- Bac-Track software and Outbreak Management Tool powered by Bonafide
- NEOGEN® Analytics Insights is a comprehensive software tool that provides enhanced analytics for faster and better decision making
